### *Screening and Q&A*

Following on the festival premieres at South by Southwest in Austin, Texas, Hot Docs International in Toronto and Sheffield Documentary Film Festival in the UK, PLANETARY, the breathtaking debut film from Planetary Collective is coming to Grebbestad, Sweden for a special one day screening. PLANETARY is a provocative wakeup call, a cross continental cinematic journey, that explores our cosmic origins and our future as a species. It is the follow-up to the award-winning short film 'Overview', which captivated audiences with astronauts' stories of what it means to see the Earth from space; Sir Richard Branson called it "An exceptional documentary" and NPR, Cosmos and Culture called it "Breathtaking".

**Synopsis:** We are in the midst of a global crisis of perspective. We have forgotten the undeniable truth that everything is connected. PLANETARY is a poetic and humbling reminder that it's time to shift our perspective. PLANETARY asks us to rethink who we really are, to reconsider our relationship with ourselves, each other and the world around us — to remember that: we are PLANETARY.
